We Want to Be a Partner in EPA's National Partnership for Environmental Priorities

<u>IDENTIFYING INFORMATION</u>	
Name of Organization: The Okonite Company, Inc.	Facility Name: Okonite – Paterson Plant
Principal Contact: Thomas M. Scanlon	Title: Plant Manager
Authorizing Official:	Title:
Address: 959 Market Street	City/State/Zip: Paterson, NJ 07513
Phone/Fax: (201) 825-0300 / (973) 684-7307	
EPA RCRA ID Number: NJD062049796	Date: <u>6/25/07</u>
PARTNER AGREEMENT	
Our organization is choosing to become a partner in EPA's Naquantity of one or more Priority Chemicals currently found in reduction, recycling, or other materials management practices that we believe we can achieve as partners in this program. T	ational Partnership for Environmental Priorities. Our goal is to reduce the our products, processes, or releases using techniques such as source. In this enrollment application, we identify one or more voluntary goals he voluntary goal(s) provided below is an initial estimate and may me the program at any time. If/when we choose to revise our goals or
GOAL #1. Chemical Name: Lead	CASRN: 7439-92-1
Narrative description of proposed project:	OHORU - 7137 72 1
Narrauve describuon of brodosed brofect:	
	in sheathing for medium voltage electrical cable. We will implement a
Our goal is to reduce the usage of lead, on a variance basis,	
Our goal is to reduce the usage of lead, on a variance basis, series of process improvements to reduce and control lead u	
Our goal is to reduce the usage of lead, on a variance basis, series of process improvements to reduce and control lead u How we will measure success: We will measure success by comparing the amount of lead	used before and after the project.
Our goal is to reduce the usage of lead, on a variance basis, series of process improvements to reduce and control lead use the weill measure success: We will measure success by comparing the amount of lead 1a. Our voluntary source reduction goal for Chemical #1 is to amount of 100,000 pounds in June, 2007 (mon May, 2008 (month/year). 1b. To accomplish this goal, we will use the following source Equipment or technology modifications. Reformulation or redesign of products.	used before and after the project. o reduce the amount of this chemical generated/used from a baseline th/year) to a reduced amount of pounds generated/used by reduction options (check all that apply): X Process or procedure modifications. Substitution of less toxic raw materials. Improvements in maintenance/housekeeping practices.
